

APPLICATION BRIEF - 36/0808

INDUSTRY: CONSUMER PRODUCTS

PRODUCT: INJECTION MANIFOLD

MEDIA: USED IN THE POLISHING OF WATERS

IMI PBM Solution:

The spool piece is in a process line which is a mixture of dimethylformamide (DMF), polyurethane, and an isocyanate. The two injection valves (1" and 1/2") are designed to add the isocyanate into the DMF/polyurethane mixture; ~ 70% DMF. This was a solution sell. The spool piece was part of a package that contain a PLC and mass flow meter.
