

APPLICATION BRIEF - 119/0420

INDUSTRY: CRYOGENIC
 PRODUCT: DIVERTER CRYOGENIC VALVE (L-PORT BALL)
 MEDIA: LIQUID PHASE TRUCK LOADING

IMI PBM Solution:

Major cryogenic truck trailer supplier for liquid phase truck loading/transport required a quality Diverter Ball Valve for dual pressure relief switching valve (PRV) for use on cryogenic helium fluid transport truck trailers. Valves were required to address stringent shut off requirements, space envelope, weight, and maintainability. In addition, the client needed particular torque operation specifications met for the driver/operators.
