

APPLICATION BRIEF - 58/1010

INDUSTRY: REFINING

PRODUCT: 2-INCH FULL PORT 600# CLASS DOUBLE BLOCK AND BLEED VALVE

MEDIA: HYDROCARBONS - OIL SANDS CRUDE

IMI PBM Solution:

A major petroleum company specified IMI PBM Double Block and Bleed Valves for isolating high pressure coker hydrocarbons from sensitive instrument gauges. IMI PBM's Double Block and Bleed Valves with 600# flanges and carbon graphite seats and seals provided safe and reliable isolation of high pressure media in a smaller envelope compared with competitive gate valve designs.
