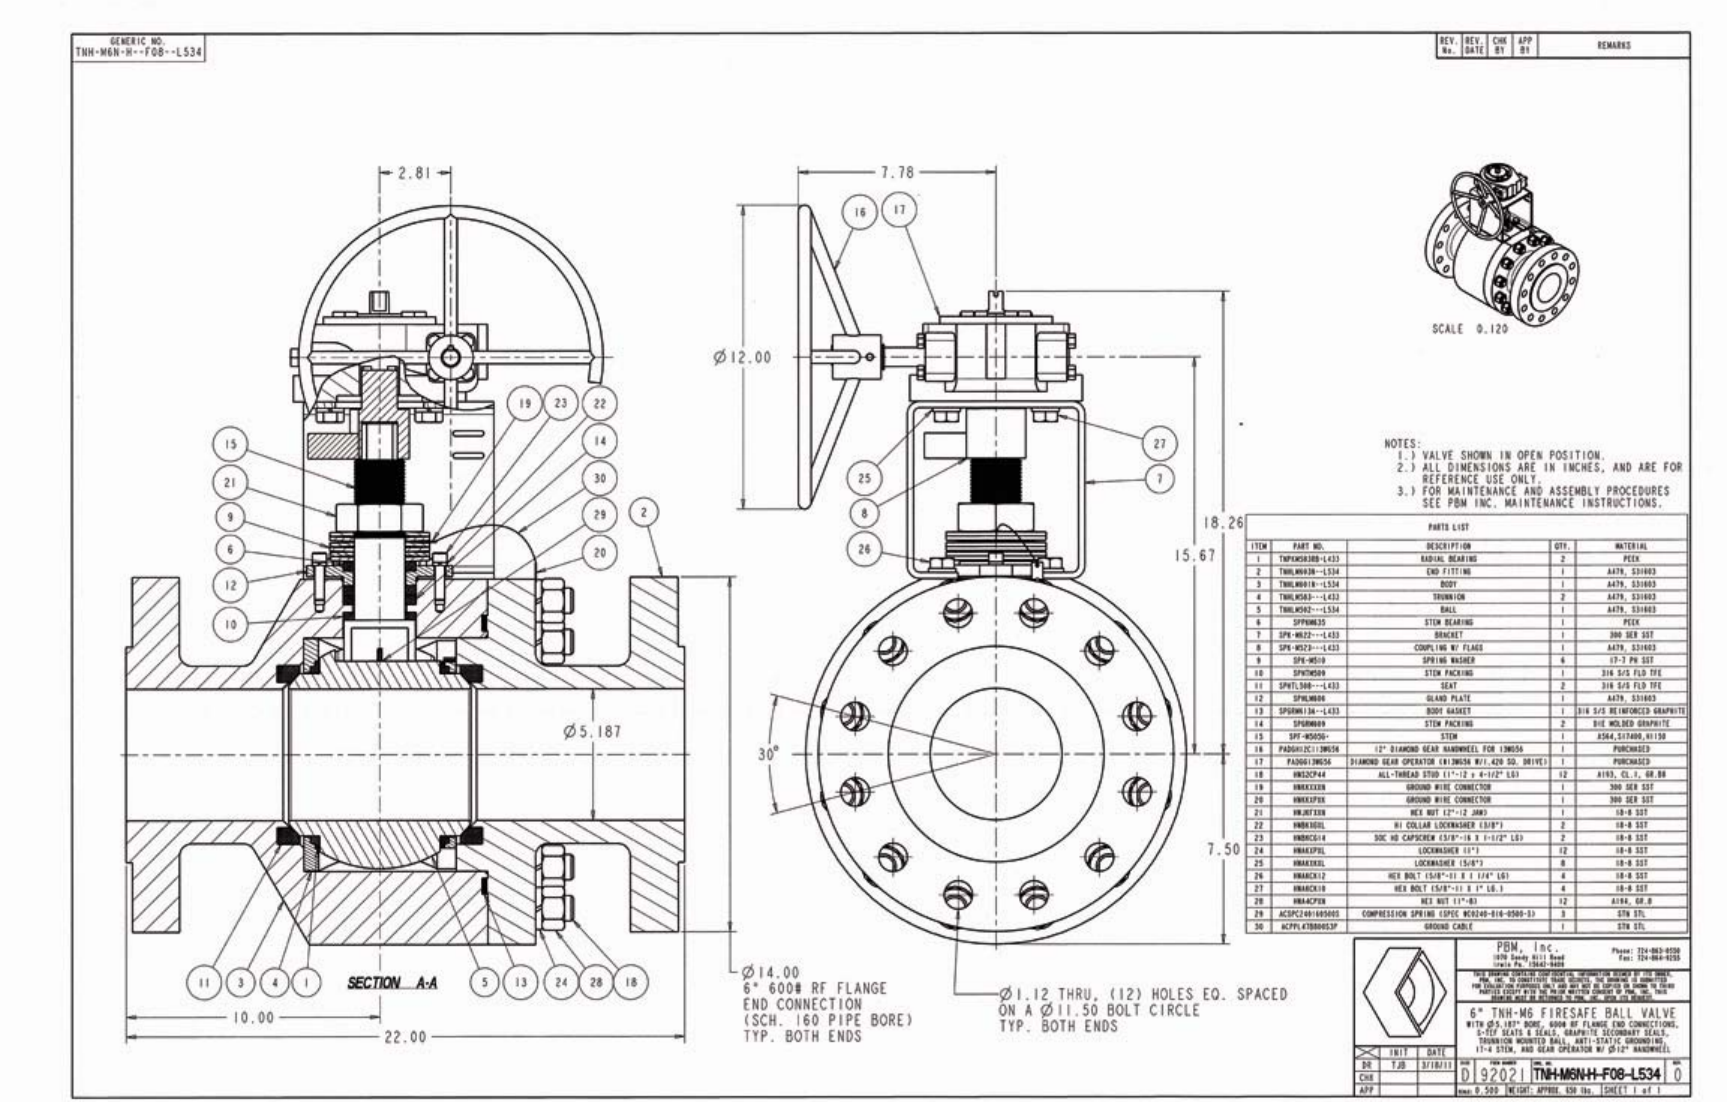
Products: PBM ANSI Trunnion Valves

PBM Valve Solutions

www.pbmvalve.com



A requirement from a major energy producer called for a valve that the port matched the pipe inside diameter. PBM produces pigging style valves currently and this valve/valves was produced to match extra heavy wall pipe in sizes of 3", 4", and 6" sizes. The customer, because of the media, had to have a smooth bore through the end, ball, and seats.
